WORK EXPERIENCE

Radware
Jan 2024 - Mar 2026

Sales Enablement Specialist

Created scalable sales enablement programs and learning content that helped sales teams understand complex technologies, communicate product value, and engage customers more effectively, while partnering closely with Sales, Product, and subject-matter experts.

Faculty of Instructional Technologies
2024-Present

Teaching Assistant – UX/UI Design & Digital Learning Development

Supported students in UX/UI design and digital learning development courses, delivered lectures and hands-on instruction in Figma and Articulate Storyline, provided technical guidance, and supported students throughout their projects.

Cyber School
2021-2022

Lead Instructor and Technology Educator

Delivered cyber and technology training programs, translating complex concepts into clear and engaging learning experiences for young audiences, while coaching and supporting a team of instructors to ensure consistent, high-quality delivery.

IDF Service
2016-2019

Instructional Designer and Instructor

Designed and delivered learning programs on Arabic, Islam, and Middle Eastern studies for high school students, translating complex subject matter into clear and engaging content. Also facilitated instructional design training for future leaders, covering effective presentations, lesson planning, and structured content delivery.

EDUCATION

HIT College

B.A. in Instructional Technologies

A three-year program combining theory and hands-on practice in designing, developing, and evaluating technology-enhanced learning solutions, including UX/UI, multimedia, training design, and programming.
